# Chapter 1

## Introduction

### 1.1 Background

### 1.2 Research Questions

RQ1 (Chapter 4) How can we do a thing?

A thing needs to be done, because of X, Y and Z. But how?

RQ2 (Chapters 5 and 6) How can we write a cohesive thesis about our previous work?

The work done by Author *et al.* has been worthwhile to the scientific community. To gain useful acknowledgement for these contributions, a cohesive thesis should be written that ties together the various works from the recent period in terms of a (continuous) research focus.
